## PROJECT

### A Web Scraper Discord Bot

- Developed a discord bot using python, with bs4 and discord API
- The bot extracts the latest updates from the university's notice board.
- Sends updates as embedded messages in Discord chat.
- Presents information in a neat and user-friendly interface.
- Responds to user commands efficiently, ensuring an interactive experience.

### A Movie Searching Website

- Developed a dynamic movie searching website using Flask, HTML, CSS, and JavaScript, catering to users' movie preferences.
- Integrated a user-friendly interface allowing users to search for movies, view details and create a watchlist.
- Implemented CRUD (Create, Read, Update, Delete) operations to manage the user's watchlist effectively.
- Demonstrated problem-solving skills by addressing challenges such as API integration, data synchronization, and cross-browser compatibility.
